10 Reasons to Get Furry

The Only Whitepaper that is Furry Fun to Read!

Hi!

I'm Furry Doge.

I Furry Up the REAL World.

So… Let's Get Furry!

Furry Reason 1

Furry Doge Is Now Here

Furry Doge is a crypto currency, a token that you can buy. As a community of Furry Friends, we support financially healthy green projects: the Furry Causes.

The crypto mining epidemic is as bad for the planet as fracking. As a token, Furry doesn't rely on Proof of Work (PoW), which could better be called Proof of Waste!

Furry Doge is a decentralized Binance Blockchain token and as such connected to the Binance Smart Chain, a rapidly growing super popular network in the DeFi industry.

Furry is the safest doge around with financial security and no presale, no allocated team tokens, no burned LP tokens.

As for now, Furry can be swapped on Flooz Trade and PancakeSwap.

Furry is the ONLY coin that actually invests in tangible and concrete Furry Causes.
It's the ONLY coin with the snowball effect of the Furry Cycle: our Furry Footprint will grow and grow – as will Furry's value. That's why we strongly encourage ***keeping, not selling*** Furry. We are in it for the long term, will you join us on our journey?

Furry Transaction Specs
If you buy Furry Doge tokens you get 88% in tokens of the amount you spend. Of the remaining 12%...

- 5% is reflection for all holders, which means that it is divided over the value of the other Furry token holders;
- 4% goes to the locked liquidity pool;
- 3% is our advertising budget.

Why? Because we all want the Furry Doge tokens to increase in value. We get there by stabilizing the coin by continuously increasing the amount of Furries in the liquidity pool. The value also increases when more people buy Furries, so we advertise on the internet and social media. But most of all, it's our mission that will power our growth:
to Furry Up the REAL World.

Furry Reason 2

Furry Up the REAL World

Why is Furry needed? Because our planet is in worse shape every day. Climate disaster, deforestation, pollution, plastic soup, species extinction… We call that 'pigskin', the opposite of Furry. Furry does not want to be your virtual doggie, does not need to be successful in the metaverse. Furry wants to Furry up the REAL World.
Let's harness the mega money power of crypto for a big fat Furry Footprint.
Let's do it fast.
Let's Furry Up the world!

Furry Reason 3

Furry Causes

Furry adopts projects in the REAL world that make a REAL green difference, like windmill and solar panel parks, sustainable banana / cocoa plantations, green-produced biodiesel and no-footprint luxury resorts. Their business model must be healthy because a sick Cause doesn't do any good. Only abundance can truly give!

We commit to their cause and find investors for them, so they cause lots of Furriness.

What is a Furry Cause:

- CO2-neutral footprint.
- Of added value to the environment.
- Very low risk in terms of money.

The Furry Causes will make a REAL difference because:

- Investing in green, healthy, sustainable projects makes the world *less* pigskin and *more* Furry.
- The returns on investment are 20% reinvested in Furry Doge's liquidity pool and 80% in new Furry Causes.
- We communicate the Furry Causes on our website and in the social media channels.
- In and behind our team there's lots of experience with renewables: we have a backlog of great projects and can scale up fast when Furry truly takes off.
- Every year we justify the results of our investments in the Furry Causes in our financial statement.

Check out the Furry Causes at https://furrydoge.io/projects/

Furry Reason 4

Furry Cycle = Furry Force

Potentially, the Furry Cycle powers the greatest green impact ever seen: the Furry Force!

We invest in Furry Causes with a healthy business model and a low risk profile.
Our return on investment we totally re-invest in Furriness again: 20% in Furry's locked liquidity pool and 80% in nice new Furry Causes.
This way, we stabilize Furry and we spread ever more Furriness with ever more Furry Causes, for a HUGE Furry Footprint on the world.
Dig the Furry Cycle? Join the Furry Force!

Furry Reason 5

Furry Exchange

For our investors in green projects, we will open wallets that are linked to and locked during the specific project. For general trading, we are starting on Flooz Trade and PancakeSwap. Later and with the help of our community of Furry Friends, we will enter the big platforms.

Eventually, Furry gets its own green wallet: the Furry Purse.

So… Let's Get Furry!

Furry Reason 6

Furry Promise

Integrity and consistency, that's the Furry Promise. Furry will be audited by an international accountant.

And as for the Furry Causes: everybody is invited to check our projects on site!

Furry Reason 7

Best Furry Friends Forever

We are a vibrant social media community of Furry Friends! We inspire each other, dream up new Furry Causes, keep our movement healthy and redefine abundance: Furriness!
What's the value of only money when your world is getting more pigskin every day?

To ensure that we become BFFF's - Best Furry Friends Forever - there will be regular updates on the Furry Causes. New green initiatives with a healthy business case will be warmly welcomed and further developed.

There also will be the opportunity to support us and win lots of Furries.

Our vision is to be a long-term global source of green prosperity and the community of Furry Friends Forever is crucial to making that happen.

Ask our CEO & Furry Causes Developer @Dennis_Oemar_Said any question on Telegram!

Become a Best Furry Friend Forever at https://furrydoge.io/team/

Furry Reason 8

Furry Runs

To stay healthy and create abundance, Furry needs to run.
Use Furry for what it's made for: payments!
There are one hundred billion Furries; that should be enough to make a difference the world badly needs.
Let Furry Run.

Furry Reason 9

Furry No Joke.

Furry is playful because every smile makes the world Furrier. So have fun with Furry!
But beware, Furry is NOT a joke and Furry is NOT kidding…
We are dead serious about why Furry is here and what we want:
to Furry Up the World.

Furry Reason 10

Time for Fertile Furryvolt!

To Furry Up the World, Furry must be fertile. Because fertility feeds!

Furry is like a seed in fertile soil that grows into a great tree of Furry Causes: green and profitable projects. Furry yields ever bigger profits that create prosperity and at the same time we invest in a better environment, a greener world.

Furry is the FIRST coin that actually invests in real Furry Causes.
Furry is the ONLY coin with the snowball effect of the Furry Cycle.
NOW is the time…

so…

Join the Fertile Furryvolt!

Furry Timetable

NOW:

You can find Furry Doge on Flooz Trade and PancakeSwap.

Visit us on https://furrydoge.io where you can join the Furry Friends Community and get an impression of the Furry Causes.

Q1 2023: Furry Doge is listed on coinfinders like CoinMarketCap and CoinGecko.

Q3 2023: Furry Doge is listed on large trade platforms like Binance, Coinbase, Bitstamp and BitFavo, and many more.

Q4 2023: Start of the Furry Cycle by investing the first profits in new Furry Causes.

Furry Pack

Proudly introducing the pack of great specialists realizing and supporting the Furry Vision!

Gökhan Balci – Furry Doge Creator

“My vision is to forge a bond between monetary crypto power and greenness that is beneficial to the world. So, I created Furry Doge. I am delighted to see that Furry now really lives and I wish the world lots of Furriness!”

Dennis Oemar Said – CEO & Furry Causes Developer

“Furry has me running! I’m in charge of the operation and I am responsible for developing green projects with a low risk profile. We invest in real estate, residential areas, and natural plantations. And if you have any comments or questions, I’m your man on Telegram: @Dennis_Oemar_Said.”

Robbert Bloemendaal – Furry Linguotope Creator

“I believe in Furry Doge’s potential to make the world a better place. As a visionary taleteller, I created the Furry Linguotope to communicate both to the mind and to the heart. Now that Furriness has a common language, we can lovingly gather around Furry and make it work for the REAL world.”

Dylan Oemar Said – Furry Community Builder

“Together we can be very strong as a community of Furry Friends. I will do my utmost to keep all BFFFs up to date via social media & Telegram. Our Furry Causes Communication makes us stand out from coins that do not give clear evidence of their projects. We want our community to be behind us 100%!”

Remco van der Schans – Furry Website Wizard

“Designing the coin and building a home for Furry has been a great pleasure. You get to know Furry on the website and learn why Furry will change the world. If you want to share in the Furriness, you can buy Furry through the links on the website.”
